ACTIVITIES

What are the things in the classroom that the children can count? Provide objects for them to count.

Keep some objects on the table and instruct the children:

Pick up 6 pencils.

Please give me 7 buttons.

Please give 8 coins to Ravi.

Keep 4 pencils in the box.

Let the children give these instructions too.

They can try asking and answering: How many pencils are there?

Take them outside. Write 1 to 10 on the ground and give them instructions:

Go to number 5. Jump to number 6. Walk to number 10 etc.

Combine numbers with other vocabulary (e.g. fruit/animals) that the children are learning.
